Chapter 7: Coordinate Geometry

In Class IX you studied how to locate a point on a plane. This paragraph deliberately stops mid-sentence so that the stitcher must join it with the text that begins on the following

Name	Marks
Ram	30
Sita	28
Arjun	35

page without any visible break in the prose.

Name	Marks
Meera	32
Kabir	27

7.2 Distance Formula

The distance between two points is given by
